Research
• Work with a faculty mentor on an independent research project relevant to a specific host-microbe study system.
• Learn and use tools in molecular biology, bioinformatics, evolution, ecology, population genetics, and applied systems management.

Synthesis
• Participate in synthesis panels with other students and research mentors.
• Share the findings of your research at PPPMB department and Cornell campus wide symposiums in undergraduate research.

Professional Development
Participate in workshops including:
• Research ethics
• Science communication
• Planning for graduate study

Duration
June 1, 2015 - August 7, 2015

Students Receive
Stipend of $5000, travel subsidy, meal allowance, and on-campus housing.

Who Should Apply
• All undergraduate students interested in understanding microbial interactions with eukaryotic hosts.
• Members of minorities underrepresented in science, undergraduates from small colleges, and first generation college students are strongly encouraged to apply.
• Applicants must be United States citizens or permanent residents and at least 18 years old.

Application deadline: January 7, 2015.

For information on how to apply, visit: http://reu.2ppmb.cals.cornell.edu

The Microbial Friends & Foes REU program is funded by the NSF award DBI-1263103.
